Standard thicknesses:	28 mm	38 mm	

## 3. INDIVIDUAL PACKAGING

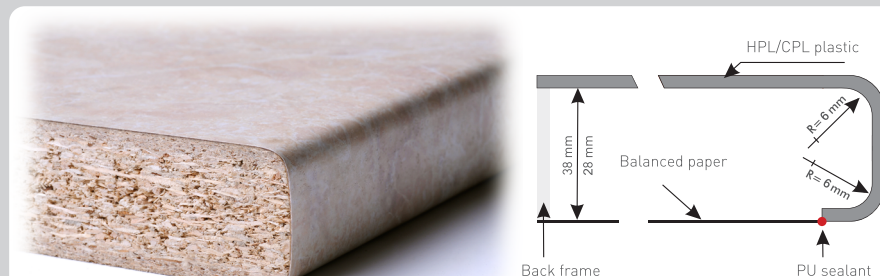

For each buyer of SWISS KRONO worktops is available the packaging service of every individual worktop in dense polyethylene film for their additional protection.

## 4. WORKTOP PROFILE

### PROFILE R3

### PROFILE 6K

## 5. WORKTOP EDGE

### Standard formats:

3050x31 mm

4100x31 mm

4100x41 mm

For every SWISS KRONO worktop we keep in stock a worktop edge with identical decor and structure. The format of the worktop edge corresponds to the worktop format, in accordance with the standard collection.

## 6. PROTECTIVE LAYER OVERLAY

Plastic of SWISS KRONO worktops has an additional protective layer - overlay, which contains corundum and provides the worktops with higher resistance to mechanical damage and external factors (moisture, UV radiation, etc.).

## 7. HPL PRODUCTION LINE

The main part of worktop plastic is produced at the SWISS KRONO plant in Poland, on a modern HPL line with a production capacity of about 60 million m<sup>2</sup> of HPL plastic per year.

This gives us the opportunity to control the quality of plastic at the stage of its production, as well as guarantee us efficiency and flexibility by the implementation of the orders.
