COLLECTIONS OF OSB PANELS FOR ELEGANT AND MINIMALIST INTERIORS

DESIGNED AND MADE BY

SWISS KRONO

BE.YOND
ECOWALL

BE.YOND ECOWALL is a milestone in design, which will be used in interior decoration and arrangement: modern, loft arrangements, as well as those retro-like.

Through the relatively large size of the panel, it is possible to quickly decorate the wall surface, giving it a distinctive, unique character.

Raw, seemingly ascetic OSB boards can also be an inspiration for creating a unique image of residential, office, and commercial interiors. The image of the boards in a new aesthetic dimension conceals creativity, courage, and unconventionality within itself.

This magnificent metamorphosis of OSB goes beyond clichés. It allows to create a wide variety of wall and furniture decorations – from Scandinavian simplicity to subtle opulence emphasizing individualism and elegance of the created interior.

BASIC COLLECTION

The Basic Collection is a proposal for elegant, subtle interiors with stylish minimalism.

OSB WHITE – lined surfaces of walls and ceilings optically enlarge surfaces, and are a perfect background for homeware and decorative elements.

OSB NATURAL – it means harmony with nature. It favors relaxation and high spirits by creating a warm, pleasant atmosphere in the interior.

OSB GRAPHITE – despite its austerity, it emanates subtle elegance. Juxtaposed with other colours from the basic collection, it makes the interior unique and harmonious.

8 ART STYLE COLLECTION GOLDEN_3

The panel is covered with a drawing of decorative single-color patterns in which there is also a golden color. This combination of wood and gold symbolizes the richness of nature. Instead of painting the golden lines, the higher-standard panels could be decorated with a gold-anodized aluminum strip and glued into the grooves prepared on the panel.
