

## Certifications

ISO 9001 is a standard that sets out the requirements for a quality management system. It helps businesses and organizations to be more efficient and improve customers satisfaction.

We successfully developed and implemented a comprehensive Environmental Management System, ISO 14001, which was launched in 1999. Ensuring that as one of the largest wood processing companies in Europe, we are always aware and ahead of our responsibilities to our planet

Swiss Krono AG participates actively in the reduction of CO2 emissions and optimization of energy efficiency.

Forest Stewardship Council - FSC, is a truly credible label. FSC stands for a transparent, well-conceived system for the traceability of timber to assure a sustainable management of forests.

It highlights the origin and quality of goods and services from Switzerland, which conscious buyers and consumers have come to expect.

This label declares we use wood that origin from Swiss forests and that complies with strict Swiss laws and standards.

PEFC works throughout the forest supply chain to promote good practice in the forest and to ensure that timber and non-timber forest products are sourced with respect for the highest ecological, social and ethical standards.

Swiss Krono AG offers CARB2 certified products that meet the California Air Resources Board's (CARB) phase 2 stringent emission standards for formaldehyde emissions.

Swiss Krono AG products are already TSCA Title VI compliant, ready for the implementation of the new ruling on June 1st, 2018.
